

Innovative thinking. Traditional values.

Established in 1953, Cutcher & Neale is renowned for its integrity and professionalism in delivering exceptional service.

Cutcher & Neale is a leading accounting and financial services firm, servicing individuals and businesses with highly personalised service and professional expertise.

Our mission is to be dynamic, proactive and innovative in creating tailored solutions for our clients, in an effort to enhance our clients' wealth and ultimately, their lifestyle. The practice boasts seven partners and a team of more than 90 staff who are all committed to your success. The combination of highly qualified professionals and client service teams ensures that we are accessible to you at all times.

Our Partners

“We are committed to our clients' growth and we are always striving to exceed their expectations.”

Ensuring the highest possible service is constantly delivered to our clients is paramount to our business. As a result, we maintain Specialist Divisions to offer the diverse range of services demanded by our extensive client base.

Accounting & Taxation Services

We give tailored, clear and practical taxation advice and planning, preparation of financial statements and management accounts, ensuring it remains appropriate to your needs.

Assurance Services

While the financial statement audit is the cornerstone of the audit, our philosophy involves gaining a complete and intimate understanding of your business. By combining our knowledge of your business and our expertise, we are able to tailor our audit process specifically to the risks faced by each of our clients. We aim to provide insightful recommendations to management in addition to fulfilling compliance requirements.

Business Services

Taking business to new levels by offering advisory services, valuations, risk management strategies, best practice, business structuring, franchise and business evaluations.

Business Software & System Solutions

Providing clients with a broad range of accounting system and management information solutions. Our consultants specialise in products which range from entry level accounting systems, stand alone payroll/HR systems and mid-level enterprise resource planning systems.

Finance Brokerage

Providing tailored lending solutions for all your finance requirements. We can assess and recommend the most appropriate equipment finance, home and investment loan and commercial lending products based on your individual needs.

Financial Planning & Investment Services

Delivering a total financial solution by not only investing your money but also preparing tailored financial plans to ensure the best returns on investments are achieved while reviewing and evaluating your portfolio.

Forensic Accounting

Many disputes involve a complex blend of legal principals and financial implications. We help make sense of the financial aspects of a dispute. We can provide comprehensive and unbiased reports that can be used in mediation or court proceedings.

Self Managed Superannuation Technical Services

With the significant number of changes to superannuation in recent years, more people are turning to Self Managed Superannuation Funds as a means of reaching their retirement goals. Self Managed Superannuation enables control and choice over your investments as well as providing a vehicle for various tax and estate planning strategies.
