

QuickBooks® Plus 2008/09

Features & Benefits

Timesaving features and powerful functionality make QuickBooks Plus a must-have for efficiency-minded businesses that manage inventory and track payroll.

Easy to set-up, learn and use

QuickBooks uses plain English and has an Easy Setup Wizard to get your business up and running within minutes.

QuickBooks' user-friendly home page ensures all frequently used activities and features are available within a few clicks of your mouse. Simply fill out familiar forms on your screen – such as cheques or invoices – and QuickBooks does the accounting for you.

Comprehensive payroll management

All payroll information is centralised and available at your fingertips in the Payroll Centre. From here you can perform all payroll tasks, drill down to previous payroll transactions, enter time, create and schedule payments, email pay slips to your employees, and even split their pays into multiple bank accounts.

QuickBooks Plus integrated payroll will save you time and money by avoiding duplicate data entry and will help you avoid hassles associated with incorrect payroll withholding.

Monitor business performance

More than 100 reports and graphs can be generated within the Reports Centre to help you keep a close eye on your business. With just one click you can also drill down into reports to find detailed financial information. You can even convert the report into a PDF file for email, so the recipient views the report just as you see it in QuickBooks.

Manage your business more effectively

QuickBooks is much more efficient than spreadsheets, word-processing or paper ledgers. Quickly and easily manage basic tasks like printing cheques, paying bills, generating reports, invoicing customers and tracking expenses. You'll spend less time and money on bookkeeping and paperwork – and have more time to work on other important areas of your business.

Record, track and reconcile your inventory balance

QuickBooks allows easy entry and tracking of all your inventory movements and costs.

QuickBooks® Plus 2008/09

New Features

Straight forward tracking of tax and GST

QuickBooks now contains an intuitive and more accurate tax tracking system for day-to-day transactions and for tax and BAS reporting.

Tax Items are now linked to Tax Codes so you can't accidentally assign the wrong sales or purchase tax code.

Payroll enhancements

- A new **Payroll Setup Wizard** helps first-time users set up integrated payroll with clear and concise instructions at every step.
- All employee records and payroll transactions are now centralised and available at your fingertips in the **Payroll Centre**. Plus you can now customise your employee list to suit your requirements.
- A new **Scheduled Payroll Wizard** helps make payroll processing convenient and hassle free. You can group your employees in the way that suits you, and set group attributes that makes payroll processing even easier.
- You can now **edit or void past payroll payments** avoiding the need to recalculate entire pay cheques, with inbuilt security safeguards and information messages. For example, when changing actual payroll hours and items pay you can work in either Lock Net Pay or Unlock Net Pay mode.
- The new **Enter Payroll Information** window allows for an overall view of the payroll process. You can enter the hours for all employees in a single window making payroll entry much easier.
- Quickbooks now comes with an **enhanced superannuation** module providing more calculation options, including the ability to store multiple super fund details for all existing and past super accounts.

"The fundamentals in QuickBooks are very strong...efficient data entry, excellent reporting capabilities and adaptable enough for many different business needs."

Australian PC User, August 2006

QuickBooks® Plus 2008/09

Improved features for working with your accountant

The Accountant's copy of your company data file has been improved to streamline the way you work, with new features including:

- A new dividing date that clearly delineates which periods are for your accountant to work in, and which are for you;
- Improved warnings for canceling the Accountant's copy;
- Expanded areas that you and your accountant can work in while the Accountant's copy is active;
- Review, accept or reject changes from your accountant as a batch, or individually; and
- Receive notes and instructions from your accountant inside the Accountant's copy.

QuickBooks home page

All key tasks and functions are now available within a few clicks of the home page with new Customer, Supplier, Employee, Company and Banking centres. You can also customise how information is displayed in each of these centres.

Customise and re-size displays and the appearance of your desktop

QuickBooks now works even harder for you as you can customise and re-size displays, reports and workflows. The company desktop can also be customised by each user. You can customise colour and content, and arrange toolbars and icons to suit the way you work.

An 'always on' Audit Trail

The 'always on' Audit Trail makes it easier for your accountant to spot possible trouble spots or mis-postings in your accounts.

QuickBooks Google Desktop Search

QuickBooks Google Desktop Search now indexes your entire data file making it much easier to find exactly what you're looking for.
